**DVD ■ POPULATION CONTROL: HOW CORPORATE OWNERS ARE KILLING US** - From the food we eat, the water we drink to the air we breathe, everything these days seems capable of killing us. Recently we have seen an unprecedented number of deaths due to medications for diseases that may not even exist, obscure cancers caused by our modern devices, and brutal police tactics. All a coincidence? Think again. Acclaimed researcher Jim Marrs lays out a stunning up to date case for his most audacious conspiracy yet - the scheme concocted by a handful of global elites to reduce the world's population to 500 million by whatever means necessary and make a profit from it. He pulls no punches in exposing this evil and chillingly effective plan. He explains how a small group of tremendously wealthy and powerful people control virtually every important industry - guns, oil, pharmaceuticals, food, and of course the media - and how it uses this vast network of conglomerates to take actions that lead to the deaths of men and women all over the world. Marrs lays bare the damning truths corporate owners don't want you to discover in this explosive presentation. £10

**DVD ■ THE SHOCKING TRUTH WHY POPE BENEDICT RESIGNED** This unedited video (banned) is intended to educate viewers of the circumstance surrounding the most controversial resignation of Pope Benedict the XVI. The Catholic church is a beacon of light and a source of hope to many of its followers. The failings of its hierarchy to uphold its theocratic responsibility should serve as a warning to other Christian institutions of the grave consequences of their actions. On the 28th of February 2013 Pope Benedict XVI stunned the World as he unexpectedly resigned as the head of the Vatican Order. The shortest office ever held by a Pope for over 600 years. No previous Pope has ever resigned. Why did he resign? When the helicopter took him away he was leaving a bitterly divided Vatican. This is the inside story of the events that undermined his papacy. It's a story of corruption and cover up. "If I don't get a response from you I go public!" Of sexual scandal and abuse. "If you tell anybody your parents will burn in hell!" Of Secrets and hypocrisy. Sex!!! This is dynamite. £10

**DVD ■ MIND CONTROL: THE SECRET WAR** - It is one of the worst kept secrets of the West's intelligence agencies that, for decades, they have worked virtually non stop to perfect means of controlling the human mind. But while many have suspected the existence of these projects, the details have long been preserved. Mind Control blows the lid off years of chilling experiments, drawing on documents reluctantly released through the Freedom of Information Act and interviews with some of the victims, including a woman whose past was literally taken away. Hear from John Marks, the author of In Search of the Manchurian Candidate, who broke the story of the CIA's abuses by unraveling the mysteries contained in financial records. All the other records pertaining to the experiments were destroyed by the agency in an attempt to prevent the details from ever being known. After viewing this important programme, you'll have reason to wonder about your own thoughts!!! You MUST buy this video now. £10

**DVD ■ FRACTALS, DNA AND THE GOLDEN RATIO** - Fractals are the many recurring patterns in nature, life and energy. Because a fractal signifies infinite compression, it is what spans the gap between the symmetries of the very small and the very large. Fractals exhibit self similarity, meaning their inner structure has the same pattern as their outer structure - like a pine cone or a fern tree. Just as fractality describes the geometry of waves of energy or charge, fractals manifest as wave patterns that evolve ad infinitum - like an encoded thread linking larger spirals to infinitely smaller ones. The Golden Mean ratio is the keystone to: Sacred Geometry, Ancient World Technologies, Classical Architecture, Mathematics, Astronomy, Chemistry and Alchemy. The Fractal Field Unified Theory illustrates that the perfect, infinite symmetry sought by physicists pre- and post-Einstein is a fractal and Golden Ratio phase conjugate field. For example, What is DNA? A helix. What is a helix? A form that, like a spiral, exhibits a Golden Mean structure. When we apply the electric principles of phase conjugation, the dielectric field made by DNA itself becomes suddenly clear. Lots of precise mind blowing details. £10

**DVD ■ HUBBLE: THE UNIVERSE IN MOTION** - The Hubble Space Telescope is one of the towering scientific and technological achievements of our age, and it has deepened our capacity for observation and discovery beyond measure, probing the revelations brought forth from this breathtaking invention, and celebrates its role in forever altering our understanding of the universe. First launched into orbit in April of 1990, the Hubble telescope remains in operation to this day. It's captured a series of beautiful and fascinating details which may hold the key to comprehending the mysteries of an evolving galaxy. Reaching depths and realms of space never before documented or even imagined, the Hubble has enabled top astronomers tremendous insights into the history and functions of solar systems, black holes, exploding stars, planets and even the possibility of inter galactic life. Detailing many of the most profound discoveries made possible by the Hubble including the violent process of star formation, each star's likely entire life span, predicting the future of our own Sun, pinpointing characteristics of the Milky Way and Andromeda galaxies in greater detail than ever before, uncovered the existence of massive black holes, the most active galaxies in the universe, examined the most obscure blemishes on Pluto's surface, and basked in the awe inspiring intricacies of Saturn's majestic rings. The documentary is populated by the gorgeous and revealing imagery captured by the Hubble telescope over the last quarter of a century. The film uses clear and crisp narration to explain complex scientific concepts, and offers precious insight into the origins of the universe and our place within it. Visually stunning with exceptional clarity of information. £10
